The Neglected "R": Re-Imagining Research and Writing

2017 Summer Institute

Join us for this four-day institute that focuses on implementing the often dreaded and neglected element of research into instruction. Each day, teacher consultants from the *Appalachian Writing Project* will present effective research-based techniques that explore various engaging and manageable text sets that provide a scaffolded approach to teaching research. Participants will leave with new ideas, graphic organizers, helpful websites, mini-units for teaching correct citations, templates for introducing quoted material, and a toolbox of innovative research topics that will be sure to grab the attention of students.

Southwest VA Higher Ed Center - Abingdon, VA

June 26-29, 2017 8:30am – 3:30pm

Instructor: Hope Cloud

ONLY \$198

Reduced Tuition!

3 college credit hours
